Who We Are

Trinity Anglican Church is a broad evangelical parish within the Anglican Church of Canada. Our doors are open to people from all denominations and backgrounds who wish to join us on our faith journey of following Jesus Christ. Trinity is the spiritual home of close to 1,000 people, more than half of whom are not Anglican by background. We strive to be as friendly and accessible as we can, with an informal worship style, frank and relevant sermons, and open communion. Small groups are our primary means of discipleship, care, and missional service. We seek opportunities to serve directly in the local community, and foster partnerships to serve beyond our local reach.

While we are proud of our Anglican identity, more than half of our congregation come from other denominational backgrounds. We celebrate what we can learn from each other and create an environment that is welcoming and inviting. There are no fences—only open doors to join us and follow the Saviour who always finds a place for one more person. We have a heart for the lonely, the marginalized and those struggling with the challenges of illness, poverty, injustice and spiritual despair at the community and the global level.

While the secular culture is growing, God is present to touch the hearts of people looking for something more. At Trinity we welcome innovative ideas and new ways of using technology and social media to engage a new generation struggling with the deeper questions of life. We are a missional church anchored in biblically grounded theology that is evangelical and welcoming. We are an ethnically diverse and multigenerational church—and proud of it!

Our Sunday services are anchored in enthusiastic worship that uses a mix of current and traditional music, expressing praise for God who is the rock of our salvation. There are places for quiet contemplation and jubilant adoration. The preaching of the gospel and the call to follow Jesus through testimony and evangelism are essential expressions of our faith.
